PROFESSIONAL SUMMARY

BS Computer Science student with hands-on experience in software development using C#, the .NET Framework, Kotlin, Java, and SQL. Strong foundation in Object-Oriented Programming and Database Management Systems, with a track record of building multiple full-stack academic projects independently, including several C#/.NET desktop applications. Seeking an internship or entry-level role in Software Development (C#/.NET), Android Development, or Data Analysis.

TECHNICAL SKILLS

Programming Languages: C#, Kotlin, Java, Python

Frameworks: .NET Framework

Mobile Development: Android Studio, Kotlin, Java, SQLite

Database: SQL, SQLite, Database Management Systems (DBMS)

Web Development: HTML, CSS, Bootstrap

Tools: Visual Studio, Android Studio, MS Word, Git

Concepts: Object-Oriented Programming (OOP), Dynamic Programming, Data Structures

EDUCATION

PAF KIET University, Karachi, PK 2026 (Expected)

Bachelor of Science in Computer Science (BSCS)

DJ College, Karachi, PK 2020 – 2022

Intermediate (FSc)

PROJECTS

Restaurant Management System (Desktop) – C#, .NET Framework

- Built a desktop application using the .NET Framework and C#.
- Implemented order management, billing, and inventory tracking modules.
- Connected the application to a SQL database for persistent data storage.

Student Management System (Android) – Kotlin

- Developed an Android application using Kotlin to manage student records.
- Implemented CRUD operations with SQLite database integration.
- Designed a clean, intuitive interface for administrators.

Student Management System (Desktop) – C#, .NET Framework

- Developed a desktop application using C# and the .NET Framework to manage student records.
- Implemented CRUD operations with SQL database integration.
- Designed a clean, intuitive interface for administrators.

Cricket Management System (Website)

- Developed a responsive cricket management website using HTML, CSS, JavaScript, and Bootstrap.
- Designed interactive user interfaces with responsive layouts for desktop and mobile devices.
- Implemented team, player, and match management features with intuitive navigation.
- Optimized the website for cross-browser compatibility and improved user experience.

Food Express – Android Food Ordering Application

- Developed an Android food ordering application using Kotlin and Android Studio.
- Designed user-friendly interfaces and implemented smooth in-app navigation.
- Used SQLite for local data storage and order management.

LANGUAGES

Urdu (Native), English (Professional Working Proficiency)
